

empathy & the understanding of social issues

2) Values & skills: are have to go hand in hand.

→ i) Guidance for skill application:

Skills, whether technical, creative or social are tools that enables individual to perform tasks & solve problems. However, without values such as integrity, responsibility & empathy.

ii) Creating trust & reliability:

In professional & personal relationship people trust & rely on those who not only has skills but also demonstrate values like honesty, respect & fairness.

iii) Building a balanced character:

Skills helps individual achieve their goal but values build character. A person who is skilled but lacks values may succeed in short term but could fail in maintaining long term relationships.

iv) Sustainable success:

Skills alone might lead to success; but it not be sustainable without values.

when values work together, they need to holistic success that benefits both individual & society.

Assignment - I
